About Lakshya Engineering

Founded in 2022 Lakshya Engineering has quickly established itself as a leader in the engineering and fabrication industries. With a passionate team of experienced professionals, we have achieved remarkable milestones and have continuously evolved to meet the ever changing needs of our clients.

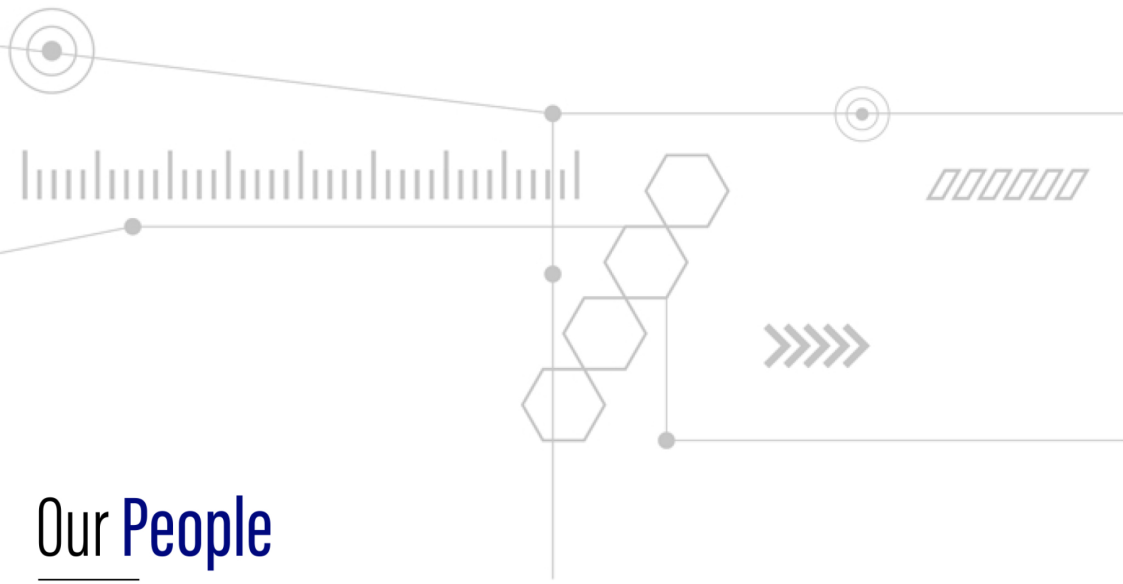

At Lakshya Engineering we specialize in the fabrication, maintenance and erection of machine and spare parts for Rubber and similar industries. Our commitment to quality, innovation and reliability sets us apart in the industry. Whether you require custom fabrication, CNC machining or precision welding we have the skills and expertise to meet your demand.

Mission & Vision

Our mission is to provide cutting-edge engineering solutions that empower our clients and drive progress. We envision a future where innovation and precision engineering combine to shape a better world.

Our People

Lakshya Engineering is led by proven entrepreneurs and visionary leaders who have decades of experience in defense, real estate, construction sectors and rubber industries. At management level, the organization comprises a team with immense experience and technical expertise in the industries.

Services

- 01.** Fabrication/ erection and maintenance of all types of machineries involved in rubber processing and similar industries.
- 02.** Structural fabrication and erection.
- 03.** AMC (Annual Maintenance Contracts)
- 04.** TIG/MIG/Arc Welding.
- 05.** CNC Machining

Our Machineries

- 1 Lathe:** We have Lathes of different specifications engineered for precision turning operations, allowing to cater the machining requirements of our valued customers.

- 2 CNC Plasma Cutter:** Experience unmatched cutting efficiency with our Plasma cutters. These machines deliver clean and precise cuts, enhancing your productivity

3 Planer : Our Planer machine is enhanced with various tools and attachments to perform accurate operations including roller grooving and all other operations.

4 Shaper : We have Shaper machine with precise machining tools to cater various machining requirements of our customers.

Drilling Machine

5.

TIG/MIG Welding Set

6.

Gas & Arc Welding Set
